

Episode Participation Opportunities

For Major Donors, Sponsors or Designees

As a special thank you for your generosity, major supporters can choose to attend Shaking Through recording sessions and video shoots as "Executive Producers", "Special Producers", or the chosen designees of Corporate Sponsors.

All recording sessions take place at Miner Street Recordings, the inspiring recording studio in Philadelphia where Shaking Through is produced. This incredible experience will change how you listen to all music.

Select Your Studio Experience...

<p style="text-align: center;">Basic Tracking</p> <p>The beginning of the recording process, is a 4 - 5 hour window in which we record basic drums, bass and other foundational elements of the song we are recording.</p>	<p style="text-align: center;">Overdubbing</p> <p>This is the second half of the recording day, a 5 - 6 hour window in which all other elements, including vocals, leads, and any remaining finishing touches are recorded.</p>
<p style="text-align: center;">Mixing</p> <p>On day two, Mixing is the 4 - 5 hour process where all tracks recorded the day before are processed and leveled for the final mix that the public will hear.</p>	<p style="text-align: center;">Artist Interviews</p> <p>Also on day two, while mixing takes place in the studio, we set up a second location (sometimes off-site) to interview the artist, producers and engineers about the artist, their song, and the experience of the day before.</p>
